The Utility of Personality Assessments for Coaching Engagements

THE SCIENCE OF PERSONALITY®

Hogan Assessment Systems at a Glance

- A leading provider of assessments used for employee selection & development
- Assessed over 3.5 million working adults performing over 450 different jobs across 40 countries
- Over 25 years of research and implementation experience
- Continuous system testing, research, and support improvement
- Legally defensible: Never been successfully challenged
- Predictive, with demonstrable bottom-line results ranging from improved employee performance to reduced turnover and recruiting expense

Mission

We provide state-of-the-art assessment solutions capable of enhancing the effectiveness of individuals and organizations

History

A 28-year history of producing measurable results supports our mission

Outline

- Overview of Utility
- Improving Strategic Self-Awareness
- The Inside of Personality
- The Bright Side of Personality
- The “Dark Side” of Personality
- Syndromes and Configurations

Utility of Incorporating Assessments into Coaching Engagements

- Learn about important attributes prior to initial interviews and conversations.
- Understand the client's interpersonal style, and tailor the interview appropriately.
- Quickly identify potentially derailing personality characteristics.
- Provide an objective way to provide feedback about strengths and weaknesses.
- Gain additional insight beyond traditional interview techniques.

Utility of Incorporating Assessments into Coaching Engagements

Wouldn't it be nice to know...

- how talkative the client will be?
- how open to feedback and advice he/she will be?
- how willing to open up the client will be?
- if they will be suspicious of the purpose of the coaching or of your advice?
- if they will create a structured development plan?
- whether they will stick to that plan?

Improving Strategic Self-Awareness

Strategic Self-Awareness (SSA): understanding one's strengths, abilities, and limitations in relation to other

people.

- Important factor in success of coaching engagement.
- Cannot be gained through introspection alone.
- Requires:
 - Feedback from others regarding interpersonal strengths, style, and challenges.
 - Accurate personality assessment and feedback.

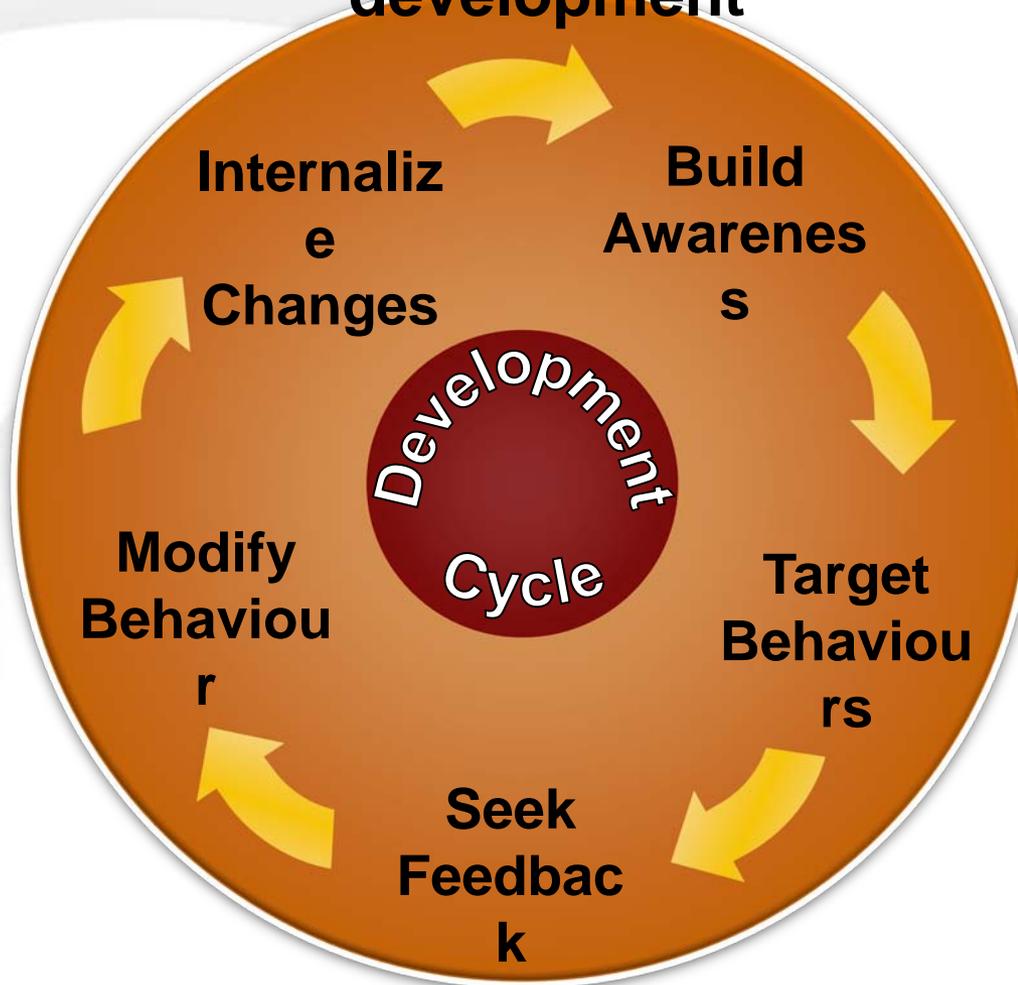

Improving Strategic Self-Awareness

- Drawbacks of pure strengths-based coaching strategy:
 - The only news in good news is that future behavior should mimic past behavior.
 - Persistence does not necessarily lead to growth and improvement. Indeed, “strengths overused” become weaknesses.
 - Performance improves only when people know what they are doing wrong, and that information comes from negative feedback.
- Meaningful SSA derives from *both* positive *and* negative feedback.

Employee Development Cycle

Building strategic self-awareness is the foundation for development

Improving Strategic Self-Awareness

The Bright Side
Of Personality

The Dark Side
Of Personality

The Inside
Of Personality

The “Inside” of Personality

- Motivators and Drivers
- Personal Values
- Determine sustained behavioral patterns
- Affects success of behavioral change

The “Inside” of Personality

Motives, Values, Preferences Inventory

Recognition	Public acknowledgement & “pats on back”
Power	Being in charge & being perceived as influential
Hedonism	Fun, lighthearted, & open-minded work environments
Altruistic	Helping others & providing excellent customer service
Affiliation	Networking, building relationships, social belonging
Tradition	Conservative cultures & strength of convictions
Security	Secure, predictable, and risk-free work environments
Commerce	Managing finances, profitability, bottom-line focused
Aesthetics	Focusing on quality & product “look & feel”
Science	Analytic problem solving & working with technology

The “Inside” of Personality

Motives, Values, Preferences Inventory (MVPI)

- Each scale contains five item themes
 - Lifestyles
 - Beliefs
 - Occupational Preferences
 - Aversions
 - Preferred Associates

The “Bright Side” of Personality

- Normal, everyday personality
- Identity vs. Reputation
 - Identity: What a client believes about themselves
 - Reputation: What other people believe about a client

The “Bright Side” of Personality

Hogan Personality Inventory

Adjustment

Stress tolerant, resilient; feedback resistant

Ambition

Assertive, self-confident, demonstrates initiative

Sociability

Outgoing and gregarious

Interpersonal Sensitivity

Warm, agreeable, and friendly

Prudence

Detail oriented, follows rules, executes plans

Inquisitiveness

Open, curious, creative

Learning Approach

Classroom vs. Hands-on preference for learning

The “Dark Side” of Personality

- Characteristics that drive behaviour under stress and pressure
- Strengths that become hindrances
- Blindspots
- Perils of accentuating only positive information

The “Dark Side” of Personality

Hogan Development Survey

Excitable	Moody, inconsistent, & unpredictable
Skeptical	Cynical, distrustful, & fault-finding
Cautious	Reluctant to act or change, risk-averse, & fearful of failure
Reserved	Socially withdrawn, distant, & unapproachable
Leisurely	Indifferent to others' requests, passively resistant
Bold	Exceptionally self confident, stubborn, & self-promoting
Mischievous	Having an appetite for risk, limit-testing
Colorful	Attention-seeking, dramatic, & socially dominating
Imaginative	Eccentric, flighty, & impractical
Diligent	Perfectionistic, averse to delegation, & micromanaging
Dutiful	Eager to please, reliant on others, & ingratiating

Configural Interpretation

- Greatest impact comes from combining assessment results
- Identify pervasive characteristics that emerge across contexts

Configural Interpretation

- Configurations by Job Family
 - Example: **Managers & Executives**

<u>SCALE</u>	<u>Low</u>	<u>Moderate</u>	<u>High</u>
<i>Adjustment</i>	-	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<i>Ambition</i>	-	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<i>Sociability</i>	-	-	-
<i>Interpersonal Sensitivity</i>	-	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<i>Prudence</i>	-	<input checked="" type="checkbox"/>	-
<i>Inquisitive</i>	-	-	-
<i>Learning Approach</i>	-	-	-

Configural Interpretation

- Configurations Within Assessments
 - Example: **Creativity**

<u>SCALE</u>	<u>Low</u>	<u>Moderate</u>	<u>High</u>
<i>Adjustment</i>	-	-	-
<i>Ambition</i>	-	-	<input checked="" type="checkbox"/>
<i>Sociability</i>	-	-	-
<i>Interpersonal Sensitivity</i>	-	-	-
<i>Prudence</i>	<input checked="" type="checkbox"/>	-	-
<i>Inquisitive</i>	-	-	<input checked="" type="checkbox"/>
<i>Learning Approach</i>	-	-	-

Configural Interpretation

- Configurations Across Assessments
 - Example: **Leading**

<u>SCALE</u>	<u>Low</u>	<u>Moderate</u>	<u>High</u>
<i>Ambition</i>	-	-	<input checked="" type="checkbox"/>
<i>Inquisitive</i>	-	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<i>Bold</i>	-	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<i>Power</i>	-	-	<input checked="" type="checkbox"/>

Complex interpretations that signal a persistent behavioral repertoire are referred to as “**syndromes.**”

Configural Interpretation

- Common examples of Syndromes:

<u>SCALE</u>	<u>Low</u>	<u>Moderate</u>	<u>High</u>
<i>Ambition</i>	-	-	<input checked="" type="checkbox"/>
<i>Bold</i>	-	-	<input checked="" type="checkbox"/>
<i>Power</i>	-	-	<input checked="" type="checkbox"/>

Competing – Competitive and confident, even in the face of failure, who strongly values being successful

Configural Interpretation

- Common examples of Syndromes:

<u>SCALE</u>	<u>Low</u>	<u>Moderate</u>	<u>High</u>
<i>Adjustment</i>	-	-	<input checked="" type="checkbox"/>
<i>Sociability</i>	-	-	<input checked="" type="checkbox"/>
<i>Mischievous</i>	-	-	<input checked="" type="checkbox"/>
<i>Prudence</i>	<input checked="" type="checkbox"/>	-	-
<i>Security</i>	<input checked="" type="checkbox"/>	-	-

Risk-Taking – High profile; seems unaffected by the stress of risk-taking; limit-testing; uninhibited by rules; seeks environments where risk is rewarded.

Utility of Incorporating Assessments into Coaching Engagements

Wouldn't it be nice to know...

- how talkative the client will be?
 - **Sociability, Colorful, Bold**
- how open to feedback and advice he/she will be?
 - **Adjustment, Bold**
- how willing to open up the client will be?
 - **Reserved**
- if they will be suspicious of the purpose of the coaching or of your advice?
 - **Adjustment, Interpersonal Sensitivity, Skeptical**
- if they will create a structured development plan?
 - **Prudence, Learning Approach, Diligent, Dutiful**
- whether they will stick to that plan?
 - **Prudence, Learning Approach, Diligent, Dutiful, and Ambition**

Summary

When positioned and used appropriately, personality assessment can provide tremendous value to the coaching relationship.
